Tell 911 exactly where the problem is with what3words

what3words is an easy way to report the exact location of an emergency. Every 10-foot square in the world has been given a unique combination of three words.

To share a what3words address for a non-emergency incident:

1. Open the what3words app.
2. Wait for the blue GPS dot to stabilise, then tap the current location icon.
3. Read the three words to the 911 call operator.
